

Material Guide: Wood

- We offer 2 types of wood in sheet material. Plywood, and veneered wood, available in a few finishes and 2 thicknesses.
- Plywood is in stock regularly. Specialty veneered wood will need to be ordered in for you. Please Let us know what finish you need - we can typically source materials in 1 business day.
- Colours and wood grain will vary from sample images due to the natural qualities of the material. Feel free to drop by the studio and see them in person!

MOST POPULAR

birch plywood

available thickness:
3mm, 6mm

Birch Plywood is our most popular material and one of the most affordable and versatile. One face of the material is free of defects with a light-uniform color. The back can have 3-6 color-matched 2 inch patches.

cherry veneer wood

available thickness:
3mm only

max sheet size:
300 x 600mm (11.75" x 23.5")

Our veneered wood sheets are premium material that has a formaldehyde-free fiber board core with real wood laminated on either side. The surface finish is sanded smooth and semi-matte.

walnut veneer wood

available thickness:
3mm only

max sheet size:
300 x 600mm (11.75" x 23.5")

maple veneer wood

available thickness:
3mm only

max sheet size:
300 x 600mm (11.75" x 23.5")

Material Guide: Acrylic

- We offer 4 types of acrylic; opaque, translucent, mirrored and fluorescent.
- Popular colours are in stock regularly. Specialty colours will need to be ordered in for you. Please Let us know what colour and thickness you need - we can typically source materials in 1 business day.
- Colours may vary from sample images. Feel free to drop by the studio and see them in person!
- Materials are typically billed by the square foot. Volume discounts start at orders of 32 square feet or more.
- Typically all materials are available in 3mm (1/8") thickness. Other thicknesses are: 1.5mm (1/16"), 6mm (1/4"), 9mm (3/8"), 12mm (1/2"), availability will vary by colour.
